[1] In the paper “Solar influences on climate” by L. J. Gray et al. (*Reviews of Geophysics*, 48, RG4001, doi:10.1029/2009RG000282, 2010), Figures 19 and 23 are in error. In Figure 19, the  $^{14}\text{C}$  values in Figure 19 (middle) were

incorrectly plotted. In Figure 23, the wrong figure was inadvertently uploaded and showed the temperature response rather than the ozone response as described in the caption. The correct Figures 19 and 23 appear here.
